

LACI PORTFOLIO COMPANIES

Advanced Vehicle Manufacturing, Inc.

Advanced Vehicle Manufacturing, Inc. ("AVM") builds ready-for-service, all-electric buses for customers who need to move people cleanly, quietly, and cost-effectively.

Arensis (sister company to Entrade)

Power Plant as a Service

Avisare

Avisare is a cloud-based software procurement platform with an RFP bidding engine.

Ayyeka

Ayyeka's remote monitoring solutions enable cyber-secure, plug-and-play smart infrastructure.

Binishells

Binishells' mission is to provide affordable construction that drastically reduces the impact on our environment while improving the quality and nature of our communities.

BK Litec

LED solutions that enable a cheaper, simpler way to deploy both energy efficient lighting and IoT hardware through existing light sockets.

CAGIX

An accredited marketplace for climate change investors and entrepreneurs. A full-service global investment marketplace for investors and entrepreneurs, addressing climate change solutions

California Lithium Battery, Inc.

Ramping up commercial production of a disruptive very high capacity Silicon-Carbon composite lithium battery anode material.

CarbonCap

Providing Carbon Capture Solutions To Industry

Chai Energy

Empowering consumers to understand and reduce their home energy usage through a free mobile app.

Connect Homes

Beautiful modern green homes for half the price. Delivered anywhere.

**CURRENT EV Concierge Service**

A one-stop-shop for purchasing and leasing EVs and chargers, featuring THE EV DEAL BUILDER; a car shopping app that gets you the lowest EV, plug-in hybrid and hybrid offers available.

**diviningLAB LLC**

Data-driven decision support tools for water-smart planning and design in drylands.

**Ecoponex**

Vertically integrated farms comprising closed-loop systems to produce healthy food, pure water, and renewable energy using only 2% of land of conventional farms.

**Entrade (sister company to Arensis)**

Entrade designs, engineers and operates one of the smallest combined heat and power units on the market, which feed on biomass waste fuels.

**envi**

envi is the only GreenBizLa certified on-demand car detailing service which uses 99.92% less water, creates zero run off and empowers the deaf community.

**Green Commuter**

Disrupting Commuting and Mobility by offering a synergistic model of all electric vanpooling, car sharing and fleet replacement services.

**Green Way Laboratories**

Our mission is to research and develop cleaning products that are high performing, safe and non-toxic.

**GRID Logistics**

Developing major components to smart-cities infrastructure by streamlining containerized freight transportation connecting ships, trains and trucks while reducing air pollution and traffic congestion through a 3-pronged solution.

**HIGEA**

Higea's magnetic, oil absorbing powder allows rapid response and collection for oil spills of all sizes.

**Hive Lighting**

Manufactures high performance, energy efficient Plasma and LED lights for Entertainment, Architecture, Sports and Science.

**Hollywood Electrics**

The global leader and pioneer in all-electric 2-wheelers offering the widest range of electric motorcycles, scooters and the world's first EV performance kits.

Homeboy Recycling Powered by Isidore (recently acquired)

A triple bottom line social enterprise combining best practices in e-waste management with training and employment for previously incarcerated Angelenos.

Juicer - Fine Electric Motorbicycles

Juicer makes faster, more powerful electric bikes in a classic style.

Local Roots

Local Roots designs, builds, deploys and operates the world's most productive indoor farming solutions.

Nimbus 9

A simple and low cost service for measurement and optimization of building assets, including: lighting, HVAC, and plug loads.

Perception Robotics

Perception Robotics develops touch-and-vision-based sensing solutions for modern industrial robots and next-generation assistive robots.

Pick My Solar

A simple, trusted way for homeowners to go solar. Below market-value bids and in-depth analysis provided to homeowners at no charge.

Rain Systems

Patented process that installs a cross-link polymer into existing turf, at root level, which reduces irrigation requirements by 50%.

Repurpose

The leading consumer brand in eco-friendly tableware. Repurpose products are 100% made from plants, non-toxic, renewable and compostable - a sustainable and affordable alternative to single use plastic products. Welcome to a cleaner world.

Saya

Saya's "AQUACERO" monitors water usage and prevents damage and waste caused by leaks and frozen pipes.

Water Canary

Water Canary is a real-time water quality data provider.

Xtelligent

Bridging today's traffic signals to tomorrow's connected and autonomous future.

SVCI PORTFOLIO COMPANIES

BioInspira

BioInspira harnesses biology to transform modern industry infrastructure by providing low cost and highly accurate interconnected sensor networks for chemical leak detection.

FreeWire

A commercialized energy storage platform for the mobile power market using second-life electric vehicle batteries.

Nevados Engineering

Improve solar project economics with an all-terrain solar tracking system driven by intelligent controls.

Pre Framing Corp

Computer controlled partially prefabricated wall framing. The fastest, cheapest, easiest way to build, saving 4M trees every year.

LACI @ CSUN PORTFOLIO COMPANIES

EveX

EveX is a psychotherapy service provider for depressed patients who desire a unique, holistic belonging program that combines exercise, psychotherapy, and a communal support system.

FITScrubs®

High performance medical uniforms made with proprietary silver embedded fabrics that kill bacteria.

Got Gift Cards

Got Gift Cards serves as a virtual platform for a full spectrum of gift card transactions, reducing the need for plastic.

MyGymPals

MyGymPals is the easiest way to find exercise partners, fitness activities and sports pickup games.

Pramash

Pramash reinvented the most enjoyable, safe and smooth high-performance Long/Skateboard.

Project Pals

Project Pals is a web-based project creation environment for students in grades 4 through college. The application guides students through a process of discovery and deep learning. Students working in teams collaborate on projects in real time, using a methodical approach to problem solving that is focused on "how to solve the problem."
